

# Recommended Checkups

Regular health checkups and routine immunizations are important for your child's health. There are many health care providers who will work with you to keep your child healthy. Many of these health care providers will be able to continue to provide care through infancy, early childhood, adolescence and even adulthood. Here is an overview of the typical schedule of checkups with the health care providers you're likely to see.

	Birth-2 months	2 months	4 months	6 months	12 months	18 months	2 years	3-4 years	5 years and beyond
<b>Doctor</b>	√	Check with your doctor to find out the checkup schedule at their office							
<b>Immunization with public health nurse</b>		√	√	√	√	√		√ (at 4 years old)	
<b>Dental</b>					√	Regular checkups as recommended by your dentist			
<b>Vision</b>	Early vision checkups with your doctor							√ (with optometrist at 3-5 years old)	
<b>Other health care providers</b>	As needed
